Overview – Plan & Strategy & Request for a Supporting Proclamation

Greetings,

Thank you for interest in improving financial awareness and financial literacy.

With so many people on the verge of running out of money before their life expectancy, many families burdened with large amounts of student loans and other forms of debt, and more than half of our adults do not have nor understand why it is important to have an up-to-date financial, estate and gift plans to protect themselves and their families, we have a serious problem. This lack of financial awareness and financial literacy places a **HUGE** growing amount of pressure on families and friends, employers, nonprofits; as well as the ultimate safety net the state and federal government.

As a brief background, we are The Financial Awareness Foundation a 501(c)(3) nonprofit organization. The Foundation serves as a nonpolitical “financial awareness advocate” for the public, the financial service and nonprofit professionals and their organizations, educational institutions, municipalities, employers, and news media.

Our mission is to significantly help solve a major social problem dealing with the lack of financial awareness and financial literacy. We believe that teaching financial literacy and the essential principles to smart money management are very important. This gives people the tools to address everyday financial decisions in a more informed manner and have the best possibilities to reach and maintain their personal and financial goals, enjoy a financially secure debt-free future, and pass on their values, knowledge and assets to future generations to make their lives and this world a better place.

To help address the lack of financial awareness and the financial illiteracy epidemic we began taking an active leadership role to recognize organizations and their management, and individuals that are championing improving financial awareness and financial literacy. We are then uniting them with other associations, organizations, nonprofits, educational institutions, municipalities, employers, and news media to actively focus their vast community resources into **The Improving Financial Awareness & Financial Literacy Movement** with its semi-annual concentrated personal finance content media blitz around the strategic campaign venues

- **Financial Literacy Month** (April) and six months later with
- **Estate & Gift Planning Awareness Month** (October) (We worked with Congressman Thompson’s Office during 2007 and 2008 to help create a proclamation that was co-authored by 50 bipartisan Congresswomen & Congressmen; we have helped advance and promote it since.)

The plan is to touch everyone at least twice a year through these strategic campaign venues, with educational and motivating content, reminders and tools for making wise informed lifelong financial decisions and to **get and keep your financial house in order by having current financial, estate and gift plans.**

The Foundation further delivers and develops exceptional educational content for the general public and for financial service and nonprofit professionals, and educational institutions that support the public’s financial and estate planning and charitable planning needs.

We are hard at work to become the ‘foundation of choice’ for improving financial awareness and financial literacy for The People - the general public, and amongst the financial service and nonprofit professionals and their organizations, educational institutions, educational institutions, municipalities and the news media.

We understand that this is a massive undertaking. As we move into the 11th year it's being accomplished through leading organizations that include:

- Financial service associations and their members
- Nonprofit associations and their members
- Financial service professionals and their companies
- Nonprofits
- Employers
- Technology companies
- Educational institutions
- Government entities
- News media

Further we've begun a national campaign to annually get all 50 Governor to create and sign supporting improving financial awareness & financial literacy proclamations for every April as Financial Literacy Month and October as Estate Planning Awareness Month. We would welcome your assistance in providing one from your state, and local municipalities.

The following State Governor's signed supporting proclamations during Estate & Gift Planning Awareness Month or Financial Literacy Month in 2018; those highlighted in yellow signed both.

- | | |

| 1. Governor Asa Hutchinson, Arkansas | 12. Governor Roy Cooper, North Carolina |
| 2. Governor Jerry Brown, California | 13. Governor Mary Fallin, Oklahoma |
| 3. Governor John Carney Delaware | 14. Governor Kate Brown, Oregon |
| 4. Governor Nathan Deal, Georgia | 15. Governor Tom Wolf, Pennsylvania |
| 5. Governor Butch Otter, Idaho | 16. Governor Dennis Daugaard, South Dakota |

| 9. Governor Mark Dayton, Minnesota | 20. Governor Jay Inslee, Washington |
| 10. Governor Phil Bryant, Mississippi | 21. Governor Scott Walker, Wisconsin |
| 11. Governor Christopher Sununu, New Hampshire | |

Wouldn't it be great if we can get all 50 state governors, and municipality thought leaders to do a proclamation in support of Improving Financial Awareness and Financial Literacy by proclaiming **April as Financial Literacy Month** and **October as Estate & Gift Planning Awareness Month!**

With very little effort you can help this happen!

Please assist by contacting your state governor, local city council, city manager, and major with a request that they provide a Supporting Improving Financial Awareness and Financial Literacy Proclamation proclaiming for their state / city / county

- **April as Financial Literacy Month**
- **October as Estate & Gift Planning Awareness Month**

Draft Proclamation in Support of Improving Financial Awareness & Financial Literacy Proclaiming:
April as Financial Literacy Month & October as Estate & Gift Planning Awareness Month

Whereas, managing personal finances today is more complicated and more important than ever before. We're living longer, but saving less. We feel less secure in our jobs and homes than we did in the past. We see our money drained by high cost of housing, taxes, education, and healthcare. We worry about the future, or unfortunately in many cases, simply try not to think about it;

Whereas, careful financial, estate and gift planning can greatly assist our citizens in accumulating and preserving assets built over a lifetime for the benefit of family, heirs, and charities;

Whereas, it is estimated that over half the adults (120 million) do not have nor understand the importance of not having an up-to-date financial, estate and gift plans to protect themselves or their families in the event of sickness, accidents, or untimely death;

Whereas, estate and gift planning involves many considerations, including safekeeping of important documents, documentation of assets, operation of law within the various states, preparation of legal instruments, insurance, availability of trust arrangements, charitable giving, inter vivos care of the benefactor, and other important factors;

Whereas, many citizens are unaware that lack of estate planning and 'financial literacy' may cause their assets to be taxed at maximum rates or, by default through the complex process of probate, to be disposed of to unintended parties;

Whereas, careful planning can prevent family members or other beneficiaries from being subjected to complex legal and administrative processes requiring significant expenditure of time, and greatly reduce confusion or even animosity among family members or other heirs upon the death of a loved one;

Whereas, the implementation of an estate and gift plan starts with sound education and planning, and then may require the proper drafting and execution of appropriate legal documents, including wills, trusts, and durable powers of attorney for asset management and health care;

Whereas, only 26 percent of 13- to 21-year olds reported that their parents actively taught them how to manage money;

Whereas, a 2018 survey by the National Council on Economic Education found that only 1/3 of States require high school students to take a course in personal finance;

Whereas, a greater understanding and familiarity with financial markets and institutions will lead to increased economic activity and growth;

Whereas, financial education has been linked to lower delinquency rates for borrowers, higher participation and contribution rates in retirement plans, improved spending and saving habits, higher net worth, and positive knowledge, attitude, and behavior changes;

Whereas, financial literacy empowers individuals to make wise financial decisions and reduces the confusion of an increasingly complex economy;

Whereas, Congress found it important enough to ensure coordination of Federal financial literacy efforts and formulate a national strategy that it established the Financial Literacy and Education Commission in 2003 and designated the Office of Financial Education of the Department of the Treasury to provide support for the Commission, and to proclaim April as Financial Literacy Month, followed by a Presidential Proclamation signed by President Obama proclaiming April 2011 a National Financial Literacy Month;

Whereas, The House of Representatives encourages the distribution of estate planning information by professionals to all Americans and passed H. Res 1499 in 2008 proclaiming the third week in October as National Estate Planning Awareness Week;

Whereas, The Financial Awareness Foundation along with the leading professional associations such as: the American Institute of Certified Public Accountants, the American Academy of Attorney-Certified Public Accountants; the American Bar Association; the Society of Financial Service Professionals, the National Academy of Elder Law Attorneys, National Association of Estate Planners and Councils, the National Association of Charitable Gift Planners, the Financial Planning Association®, the Association of Fundraising Professionals, and The International Association of Advisors in Philanthropy have supported National Financial Literacy Week/Month and National Estate Planning Awareness Month. Together these organizations represent nearly 1 million financial professionals. The accountants, attorneys, estate planners, financial planners and advisors, insurance agents and brokers, trust officers, and nonprofit executive directors and development officers that are members of these associations, can help mobilize the financial and estate planning and nonprofit communities by providing support, tools, and education for the professionals and the public they serve.
